

ARYAN

Software Engineer — Java Developer — Salesforce Certified Professional

Bhubaneswar, Odisha

aryan25798@gmail.com • +91-8804050193 • LinkedIn • GitHub • Portfolio

Professional Summary

Final-year B.Tech Computer Science student with strong expertise in Java, backend engineering, cloud computing, distributed systems, REST APIs, microservices, CI/CD, and scalable application development. Experienced in building production-grade applications using Java, Spring Boot, React, AWS, Docker, Kafka, SQL, and Redis. Skilled in data structures, algorithms, OOP, DBMS, operating systems, computer networks, and software engineering principles. Salesforce CAD and Salesforce CSA certified professional with knowledge of Salesforce administration, CRM workflows, automation, and enterprise cloud solutions. Strong problem-solving ability with 500+ coding problems solved across LeetCode and GeeksforGeeks. Seeking Software Engineer opportunities at HCLTech.

Education

KIIT University, Bhubaneswar

Expected 2026

Bachelor of Technology in Computer Science and Engineering
CGPA: 8.75 / 10

Technical Skills

Programming Languages: Java, Python, C++, JavaScript, TypeScript, SQL, Bash, Go (Basics)

Frameworks & Technologies: Spring Boot, React.js, Node.js, REST APIs, Microservices, Redux, GraphQL

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, GitHub Actions, Terraform, CI/CD

Databases: MySQL, PostgreSQL, Redis, DynamoDB

Messaging & Distributed Systems: Apache Kafka, Amazon SQS

Salesforce: Salesforce Administration, CRM, Workflow Automation, Reports & Dashboards, Security, Profiles, Permission Sets

Testing Tools: JUnit, PyTest, JMeter

Developer Tools: Git, GitHub, Linux, VS Code, IntelliJ IDEA

Core Computer Science: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design

Internships

Linux Developer Intern — Sasken Technologies, Bengaluru

May 2025 – Jul 2025

- Developed a custom Linux shell in C supporting process management, piping, and input/output redirection.
- Debugged Linux system-level processes and improved execution performance by 15%.
- Worked with Linux commands, shell scripting, and operating system concepts.

Cloud Computing Intern — AICTE Virtual Internship

Oct 2024 – Dec 2024

- Worked on AWS cloud services including EC2, S3, IAM, and RDS.
- Implemented CI/CD deployment pipelines using Jenkins and Docker.
- Monitored cloud applications and optimized deployment workflows.

Projects

Event-Driven Food Delivery System

Java, Kafka, AWS, Redis

- Developed scalable microservices-based food delivery platform with event-driven architecture.
- Integrated Apache Kafka for asynchronous communication and real-time order processing.
- Used Redis caching and DynamoDB for optimized performance and high availability.
- Implemented monitoring and deployment strategies for scalable backend operations.

CI/CD Pipeline Automation System

Jenkins, Docker, AWS

- Built automated CI/CD pipelines for testing, containerization, and deployment.
- Reduced deployment time and improved release reliability through automation.
- Configured Docker containers and cloud deployment workflows.

AI Powered Virtual Assistant

React.js, Node.js, Gemini API

- Developed AI chatbot with NLP-based query handling and real-time responses.
- Improved response efficiency by optimizing API communication and frontend rendering.

Distributed File Storage System

Java, Docker, AWS S3

- Created scalable distributed file storage solution with replication and fault tolerance.
- Implemented load balancing and secure file management mechanisms.

Achievements

- Solved 500+ coding problems across LeetCode and GeeksforGeeks.
- Finalist in CI/CD Hackathon 2025 for deployment automation solution.
- Winner of AWS Cloud Challenge 2024 for cloud deployment project.
- Top performer in coding contests and hackathons.

Certifications

- Salesforce Certified Administrator (CSA)
- Salesforce Certified Application Designer (CAD)
- AWS Fundamentals Certification
- IBM DevOps and Software Engineering Certification
- Docker and Kubernetes Certification
- Kafka for Developers Certification
- Terraform Basics Certification
- Machine Learning Specialization – Andrew Ng
- System Design Fundamentals
